

WELCOME

Welcome to our Public Consultation – we are exhibiting our proposals for the redevelopment of Tideway Wharf Industrial Estate, prior to making a planning application and would very much welcome your views. Please do feel free to discuss, your views with our design team who are here today.

Consultation to date...

The proposals we are exhibiting are the result of 9 months work by our design team who have developed the scheme through consultation with the following stakeholders:

- London Borough of Wandsworth
- Greater London Authority
- CABE
- English Heritage
- Environment Agency
- Transport for London
- Port of London Authority
- Crown Estate

This exhibition gives us the opportunity to hear your views and comments which the team will consider when further developing the proposals. Consultation will be ongoing with all stakeholders throughout the design process. We will hold a further exhibition in September when we hope to have submitted a detailed planning application.

The Delivery Team
